N° 25,069 A.D. 1897

Date of Application, 29th Oct., 1897

Complete Specification Left, 26th July, 1898 – Accepted, 8th Oct., 1898

PROVISIONAL SPECIFICATION.

An Improvement in Bandages.

I, David Baird Macdonald, of 22, Nithsdale Road, Strathbungo, Glasgow, North Britain, Chemist, do hereby declare the nature of this invention to be as follows:—

This invention relates to an improvement in the ordinary roll bandages and consists in spreading or coating the ends of bandages with any suitable adhesive substance, so that the ends are thereby held firm and thus all tying of the bandage dispensed with. The adhesive material may be applied to bandages of all kinds whether of cotton, flannel, calico, domette, gauze, rubber or any other material.

Or the bandage may be coated with the adhesive material at any part of its length.

Dated this 28th day of October 1897.

Petitioner's Agents, 115, St. Vincent Street, Glasgow.

COMPLETE SPECIFICATION.

An Improvement in Bandages.

I, David Baird Macdonald, of 22, Nithsdale Road, Strathbungo, Glasgow, North Britain, Chemist, do hereby declare the nature of this invention, and in what manner the same is to be performed, to be particularly described and ascertained in and by the following statement:—

This invention relates to an improvement in the ordinary roll bandages and consists in spreading or coating the ends of bandages with any suitable adhesive substance, so that the ends are thereby held firm and thus all tying of the bandage dispensed with. The adhesive material may be applied to bandages of all kinds whether of cotton, flannel, calico, domette, gauze, rubber or any other material.

The adhesive material may consist of Burgundy pitch, white wax, olibanum, and unvulcanized rubber; or a mixture of glucose, treacle, and chloride of magnesia.

Or the bandage may be coated with the adhesive material at any part of its length.

In accordance with my invention the bandage is much firmer; and there is a great saving of time and labour.

[*Price* 8*d.*]

Macdonald's Improvement in Bandages.

Having now particularly described and ascertained the nature of my said invention, and in what manner the same is to be performed, I declare that what I claim is:—

The improvement in roll bandages as described.

Dated this 25th day of July 1898. 5
